Annie Iouise Caréy and Clara Louise Keilogg are beyond question the most famous opera singers of modern times. In fact they have been sckneweledged to be the leaders of their profession, as well as ladies of large experience and particularly good taste. They have probably traveled more extensively than any ladies on the stage, and, as a consequence have had excellent opportunities of judging of the merits of different countries and their productions. It is certainly a very great credit to California and the semi-tropical climate of the Pacific to have had them pronounce Slaven's Yosemite Cologne the best they had ever need in any country. A letter from the Madison Square company says that this season they all their money in newspaper adverspend for amusements. Advertisements in newspapers get all the benefits of the organization, and energy not only of the publishing house, but of the United States mails and all the newspapers.

EDITORIAL NOTES.

New England Chinese sympathizers who believe that Chinamen are anxious to become American citizens, should ponder over the following of China: "All persons renouncing vising the means thereof, shall be beheaded; and in the punishment of this offense no distinction shall be made between principals and accessories. The property of all such criminals shall be confiscated, and their wives and children distributed as slaves to the great officers of state."

It is charged that Mozig, in 1879-80, while a member of a firm in Bohemia, forged bills of exchange and accept-ance amounting to one hundred thous-and dollars, and fled to Texas. The case involved extradition, and created considerable interest. Mozig confessed the charges, and expresses a willingness to return to Austria, and stand trial. UNCLE BEN JOS

CREAT SOUTH AMERICAN PA ACEA

UNCLE BEN JO was born in Boston in 1800. Being a botanist, he effected many wonderfu. cures with roots and herbs. In 1844 he went to South America to study botany, and while there accidentally made his great discovery. The natives of this country were quite familiar with it, and had always supposed it to be a poisonous herb, which they used for the sole purpose of keeping snakes away from their tents or houses. This they did by layiny it in a circle about the same at a proper distance off. This herb, Uncle Jo, as well as the natives, considered a very obnoxious and poisonous one, and when green and fresh is threw off a very distasteful and repulsive, oder. The herb grows about two feet high, and about eight inches of the top part of its stak is leafless, and this part lops over and hangs downward perpendicularly, and from its curved neck to the effect of the control of the contr and about eight library and the part lops over and stalk is leafless, and this part lops over and hangs downward perpendicularly, and from its curved neck to its end it increases in size, and on the end of the same is a large, burly-looking ball, which stalk and ball, in this hanging position, looks precisely like the tongue of a bell. Hence Uncle Jo named it the Bell Tongue Plant. In South America this herb is only found in the extreme interior of the country, and the natives there call it "Zarr Nero." It is a wonderful cure of kidney and liver diseases, also, dyspepsis, neuralgia and theumatism. We have a whole library full of testimonials: Sold by OSBURN & SHOEMAKER.
